

“Transportation Development “Hall of Fame”

Purpose

As part of its 25th anniversary in 2010, the American Road & Transportation Builders Association Transportation Development Foundation (ARTBA-TDF) is creating a “**Hall of Fame**” at The ARTBA Building in Washington, D.C., to honor individuals or families from the public and private sectors who have made extraordinary contributions to U.S. transportation development over their lifetime and demonstrated exceptional leadership.

Background on ARTBA & the Foundation

Established in 1902, ARTBA is a federation whose primary goal is to aggressively grow and protect transportation infrastructure investment to meet the public and business demand for safe and efficient travel. The ARTBA-TDF, created in 1985, is a 501(c)3 tax-exempt entity committed to promoting “research, education and public awareness” on transportation development issues.

Nomination Criteria

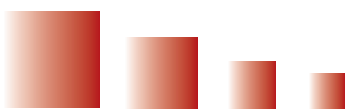

Nominations will be considered for two categories:

Transportation Design & Construction Industry Innovators

This category honors the men and women who discovered or created a “game changing” product or process that significantly advanced transportation design, construction and/or safety. This is to honor the original innovator. Describe the product or process, the problem that it addressed, and quantify its unique benefits. Explain why this individual alone should be credited for this advance and results. **500 words or less** on a separate sheet of paper.

Transportation Design & Construction Industry Leaders (Individuals or Families)

This category honors men, women and families who have made significant contributions—beyond just having successful businesses or careers—that have notably helped advance the interests and image of the transportation design, construction and safety industry.

Nominations in this category must have supporting explanations of **300 words or less** on a separate sheet of paper for each of the following three criteria:

A. Industry Contributions

- Made significant contributions by serving in leadership positions of city, state, national and/or international associations or other industry-related groups.
- Demonstrated support of worthy causes that helped advance the industry and/or boost its image.
- Played a key role in supporting industry relations with elected leaders and regulators, and other industry groups that helped achieve industry public policy goals.
- Contributed to the education or professional development of the industry.

B. Leadership

- Demonstrated leadership skills in administrative and policy areas that helped advance the industry's agenda.
- Provided significant support for industry initiatives and programs.
- Promoted awareness of the industry's many positive contributions to the nation's economy and quality of life.

C. Corporate Citizenship

- Provided leadership in corporate citizenship/social responsibility and has been recognized for leading by example.
- Supported worthy causes that have had positive impacts on industry professionals and/or boosted the industry's image through the support of these social causes.
- Provided a means or a program to educate industry professionals in sound corporate citizenship as part of the company's overall responsibility to the community.

Nomination Process

Anyone can nominate a candidate. ARTBA membership is not required. Individuals can be living or inducted to the *Hall* posthumously. **The selection process is extremely competitive, and only a very limited number of individuals will be inducted annually.** A nominee will be considered for induction over three successive years without having to be re-nominated. However, after the three-year period, the nominee's name would be withdrawn, and they would have to be re-nominated.

Nomination forms are available at www.artbatdf.org and by contacting ARTBA's Awards & Scholarship Program Manager Holly Bolton at hbolton@artba.org or 202-289-4434.

When Are Nominations Due?

Nomination forms must be received by the ARTBA-TDF at the close of business on **Friday, July 2, 2010**. Nominations received after this date will not be accepted.

How Are Inductees Selected?

A committee that includes transportation and construction industry journalists will select the inductees. Two-thirds of the committee must vote in favor of a nominee's induction.

Selection Notification

Inductees will be notified in writing by the chairman of the ARTBA-TDF Board of Trustees.

When and Where will the “Hall of Fame” Inductions Occur?

Hall of Fame inductions will be held each year during a special ceremony at the ARTBA National Convention. A special award recognizing each inductee will be permanently displayed at the ARTBA Headquarters Building in Washington, D.C.

What To Submit

Required Materials:

- Completed nomination form. Nomination forms not properly completed will not be considered.
- High-quality photo or electronic image of 300dpi or higher. JPEG, TIFF, or high-quality PDF are acceptable. Images of 10MB or less can be e-mailed. Larger files can be sent via PC-formatted CD-ROM (no floppy disks). No zip files. Or send hard copy photographs, must be at least 8.5x11” and of scan-ready quality (no visible folds, tears or other markings).

Additional documentation that is recommended and to be used by the judges, may include, but is not limited to:

- Biographical sketch
- Resume
- News articles
- List of awards or citations
- Published works
